SKILLS

HTML • CSS • JavaScript • PHP • MySQL • WordPress Theme Development • Plugin Development • Performance Optimization • Elementor • Shopify • E-commerce Development • REST API • MVC Architecture

PROJECTS

Custom Plugin Development For Bookings System

Developed a custom WordPress plugin enabling clients to manage booking appointments, availability scheduling, and customer notifications. Features include email confirmations, calendar integration, and automated reminders—resulting in 50% reduction in booking management time.

Custom PHP-Based Blog Backend API

Built a RESTful API backend using PHP and MySQL with custom MVC architecture for a blogging platform. Implemented advanced features including JWT authentication, content versioning, and efficient database queries. API supports multiple client applications with comprehensive documentation.

E-Commerce Store Optimization

Optimized a high-traffic e-commerce platform, reducing page load time by 40% through advanced caching strategies, image optimization, and database performance tuning—improving conversion rates and user experience.
